Trainer - Jeff Fecteau of Underwriters Laboratory

Jeff Fecteau represents UL Regulatory Services as a lead regulatory engineer. Jeff started his electrical career in the early 1980s in Phoenix, Ariz., while in high-school, wiring houses with a friend of the family. In the mid-1980s, Jeff enlisted in the U.S. Army as a combat engineer. When he returned home to Phoenix in the late 1980s, he enrolled and graduated from Career One Technical Training Corporation as a construction electrician. In 1998, Jeff was hired by the City of Peoria, Ariz., as a combination dwelling inspector and within a year he was promoted to senior electrical inspector. In 2006, Jeff, his wife Teri, and their son Zach relocated to Illinois for Teri's career. Jeff starting working for the City of Bloomington as a building inspector, at that time, and then accepted the position of NEMA mid-west field representative in 2007. In 2009, he accepted his current position with UL.

Jeff has been very active with the International Association of Electrical Inspectors (IAEI), since becoming a member in 1995. After serving as the president for the Central Arizona Chapter of IAEI in 2002, Jeff became the education chairperson for the Central Arizona Chapter. He maintained that position until he relocated to Illinois in 2006 and subsequently resigned his position as third vice president of the Southwestern Section of IAEI when he relocated to Illinois.

Jeff has been very active in education and electrical safety since 1998. He taught electrical codes for Glendale Community College in Glendale, Ariz., and Gateway Community College in Phoenix, Ariz., for eight years. He taught the second year apprenticeship program for the Independent Electrical Contractors Association (IECA) in Phoenix for four years. Furthermore, Jeff has conducted numerous seminars for the Central Arizona Chapter of IAEI, the Arizona Building Officials (AZBO), the Phoenix Chapter of Independent Electrical Contractors (IEC) and the Phoenix Chapter of American Society of Home Inspectors (ASHI). Jeff holds the following certifications: a certified building official (CBO), a certified electrical code official (ECO) and maintains 23 International Code Council (ICC) inspection certifications along with two (2) IAEI inspection certifications.

Class size is limited. All attendees must register by EMAIL to mark.joiner@la.gov or call Jeannie LaBove at 337-721-3637 no later than June 13, 2014. The class is open to the public but class size is limited to the first 100 registrants. CBO's or department heads may send a list of attendees to the listed email address.
